### **CubexSoft MBOX Export Crack+**

Flexible, high-speed mailbox backup and synchronization software to help you to keep your important emails, attachments, contact lists, calendars, and addresses organized with a single archive, and the ability to quickly back up and restore individual mailboxes to other MBOX email accounts on your PC or network. Various handy facilities include an Address Book that allows you to add, edit, or delete contacts from your Eudora mailbox, and create multiple custom groups within your Eudora folders to help you to more effectively organize the accounts and types of information you access. Generates MBOX files which keep the mailbox identical to the original; including all messages, contacts, incoming and outgoing messages, and attachments; the ability to work with multi-colored messages; the ability to include headers and footers; the ability to include additional user-defined fields; and a user interface that can be customized. MBOX Import, Import Eudora and HTML email files, import HTML messages or text files into your MBOX; a compact download feature which allows you to easily retrieve files you have previously downloaded; backup options which can back up any of your Eudora contacts, address lists, calendars, and tasks to your PC's local hard-drive, or to a removable disk drive or CD-RW. Runs in both windowed and full-screen modes. Has a tight integration with TurboEudora4, which allows you to synchronize your Eudora mailbox with an MBOX or HTML file on a FTP server.
