And many more... How To Fix "This app is incompatible with your device" Error On Fire TV Stick How to fix 'This app is incompatible with your device' error on Fire TV Stick? I have a Fire TV Stick 4K with Android 9.0 Pie, and I was browsing the apps on my Fire TV, and as I was trying to install something from the Appstore, I got the "This app is incompatible with your device" error. I tried to go to the settings and see if I could do anything, but my Fire TV didn't have any option for it. I searched on Google and found this thread. I uninstalled the Fire TV app on my Fire TV Stick. Then I updated the Android app on my Fire TV Stick. After that, I tried to install the same app on my Fire TV Stick, and it worked. I guess that did the trick. It would be very helpful if someone could explain it to me step by step on how it worked. A: That seems to be a bug in Fire TV (no surprise there), where some apps don't support API 19 (aka Android Pie), and so you get that message. See this comment. Possible solutions: Re-install Fire TV's app Disable Fire TV's updates Try to install the app from appstore.amazon.com instead Update: Looks like Fire TV has more options now: How to fix "This app is incompatible with your device" error on Fire TV Stick See here for more details. Update 2 The error you get is related to the App Store and not Fire TV. I contacted Amazon to confirm this and they confirmed that their App Store shows that message. Update 3 Amazon has confirmed to me that it's a bug (even though they said they'd fix it by now), and its an error message that they are trying to get rid of. They have confirmed they have no access to fix the problem as it's out of their control. Update 4 Fire TV/Fire TV Stick does not currently work with the Amazon App Store. In recent years, ceramic materials with excellent mechanical characteristics and corrosion resistant properties have been widely used as structural material for a gas turbine. The ceramic materials include, for example, a ferritic stainless steel containing 3.5 to 5.5% of C, a ferritic stainless steel
