Q: What do these different tour levels mean? There are three levels of tours in the Kobo app for Android: Easy Standard Premium I can not seem to discern what the differences are between those levels. Are there particular areas where one level excels over the other? Also, are there differences in the books that you can read, the number of books that you can read, and how much money you get when you read books? A: From The different levels are indicated for each tour, in the bottom right corner: • Easy • Standard • Premium Easy: For an absolute beginner. The most basic way of reading Kobo books. Standard: For those who like to explore the world of eBooks, discover more than 100,000 books and improve their reading habits. Premium: For readers who need extra tools to enjoy Kobo books. Premium has more options, books to read and books to buy. I get an error: "Unable to load plugin gimp-eps-import". Uninstall Humbleware and reinstall GIMP (never used, didn't think it would work). I get the same error. I haven't been able to find a way to install EPS. If there is another, more suitable editor, I can switch to that. A: I tried the following and it worked:
