However, I tried downloading again an older version of WM recorder and that gave me 14.1 MB/S... I used the exact same account and file sizes, I do have an Aero Tweak bug somewhere too, but I don't think it's related to this problem. And I can also download torrents. The problem happens in Chrome, Firefox and Opera. I tried downloading the latest versions of those browsers too, and the problem still persists. Question: Does anyone have a solution for this? I am downloading on a Nokia 9300 dual
