The pairing of Edward Cullen and Bella Swan is pretty much how it happens in the Twilight story, but in fanfiction it can be done with other characters as well. Its very common to see fanfiction being written where Edward has a relationship with someone else like Renesmee or even Bella, so there are many different combinations for people to imagine and play in this universe. The characters and events from a fanfiction writers point of view are the same in Twilight, their just how some would like it to be, but not in the characters. In contrast, Fifty Shades is about a girl who wants to write a book, but hes seeing as she is overwhelmed and nervous, hes going to teach her how to do it. The story is that he taught her how to write and then tried to persuade her to fall in love with him. Its a very different story from Twilight and has nothing to do with the Twilight characters. The character names have been changed to Anastasia Steele and Christian Grey, but they are still recognizable. In Fifty Shades of Grey, the xtremely rich Christian Grey has a face that is just beautiful in a way that is devastating to the woman he is seducing. He is sexier than any man she has ever seen and he can make her go wild. There are times in the book where he is talking about how he just cant take her innocence. She is too pure and he doesnt want to be her first love, nor her only one. This is not the same kind of seduction with his love letters being sweet and almost poetic, she cant read his mind to know whats really in his mind. Anastasia gets to experience his mind when he gives her a 3 day sex playdate after he takes her virginity. Being in a hotel with an oTc, well they call it a room playdate because he fills the room with toys and asks her to use them all and doesnt show up until the next day. It is very sexual and she cant get enough. The sex is not just good, its wild and he has her in every position. And then they arent the only one either, it is a hectic time, and she has only been with Edward. When he calls, it makes her very horny and her wet panties show very clearly. Why Icy picked the moment to switch up names is beyond me but its so clear that he is thinking more of a fanfiction writer than a Twilight fan, with Christian Grey being the main character, she probably assumed that no one would recognize the Twilight characters, but they are so recognizable that Edward and Christian even have good and bad days and motives. They get to the point where Edward is in almost a zombie state and isnt really loving this, he doesnt know what to do. 5ec8ef588b
